Hammering Down the Price

Read over our every day announcements in the local columns of this paper. Sledge hammer values are given all over the house.

Hammering Down the Prices.

We reserve the right to limit the sale on any of our great offerings. We positively refuse to sell to merchants at the prices quoted.

Hammering Down the Prices.

For our retail trade only. Let all come and partake of the enormous bargains and still more enormous quantities for this

Great Hammering Down Sale,

Eclipsing our Great Cyclone Sale of 1883, and our still greater 59c Sale of 1884.

Hammering Down the Prices.

All this week. Come and see the great, enterprising, go-ahead, wide-awake dry goods house of the city. Citizens and strangers are cordially invited.

Our daily announcement will only be a small insight into the enormous Hammering Down of Prices that is going on all over the house.

J. T. SHEWARD.

IT IS NOT THE OLD CRY

OVERSTOCKED

IT IS THE ONE CONTINUED CRY OF

THE PEOPLE'S STORE

TO ITS BUYERS.

YOU ARE OVERSTOCKING US

And their answers are—"We can't help it. We can't stand by and see goods slaughtered without taking some of the plums for our pie."

In computed figures we have $61,452 56 more merchandise than is necessary for us to transact our business with. In other words that is called dead stock. We invite our patrons to look at the stock on top of our shelves, under our counters, in our galleries, and in our basement of 46x100 feet, and see if this is truth or falsehood.

PLUMS OUR BUYERS BOUGHT FOR THIS WEEK

22 pieces all wool bison cloth, the quality that is represented to be worth $2 50 per yard, and sold as a great bargain by a celebrated bargain house of this city at 75c; all we ever asked for it was 59c.

22 pieces satin berber all-wool dress suitings, 44 inches wide, 75c a yard. These goods cost almost that much in custom duties.

10 pieces colored brocaded silks, 22 inches wide and all pure silk, 98c.

40 pieces black and colored gros grain silks, every shade represented, 98c. These silks are a bargain at $1 50.

25 pieces every shade of superfine silk faced velvet, $1 25; worth $2.

2 pieces 24-inch black brocaded velvets, $2 95. These goods are a bargain at $5.

Boys' polo caps, 25c. Boys' felt hats, 59c; better quality 75c, and best 98c. We have received from the manufacturers an invoice of 100 dozen men's and boys' hats and caps that are just half in price what we sold the same qualities for before.

In hosiery, both men's and ladies', we have the best values we have ever shown. We are showing babies' hose three pairs for 25c. Children's and Misses', six pairs for 49c. Ladies', five pairs for 49c. Fleece lined, full finished, 25c.

The terms of our Glassware Gifts are changed. Commencing MONDAY the glass sets will be presented free to purchasers of $10. We are opening the best goods of the invoice now, and Monday morning's will be the choicest exhibit to date. We want them to last as long and go as far as possible, and to that end it was considered best in distributing the remaining barrels to raise the standard to $10.

Office, 10 Court st., up stairs. Telephone 33.

BEACH'S ADDITION TO
CRESCENTA CANYADA.
Eleven Miles (by road) North of the City Plaza.

This beautiful tract, at an elevation of 1200 feet above the city and nineteen hundred feet above the sea, in full view of the ocean, San Pedro shipping and Catalina Islands, has just been plotted and placed on the market in lots of from 5 to 20 acres. It joins Crescenta on the toward Pasadena and lies directly at the head of the Verdugo Canyon, through which winds the Crescenta and Monte Vista road.

Workmen are now tunneling into the mountain above to increase the already abundant supply of sparkling, pure water, which is being piped the entire length and breadth of the tract in strong iron pipe.

The streets are being graded, and shade trees will be set out the coming winter, and no pains will be spared to make this the fairest spot of the naturally beautiful La Canyada valley.

As to its advantages as a health resort, I refer you to Los Angeles physician and citizens of other mountain resorts.

Over fifteen hundred acres of adjoining land has been sold during the last eighteen months, largely to actual residents.

The proposed western extension of the San Gabriel Railroad will cross the center of the tract. Crescenta school, store and postoffice one-half mile west; La Canyada schoolhouse, postoffice and store one mile east.

For view, climate, soil, water and adaptability to fruit-raising this tract has no superior rival in Southern California.

Terms—¼ down, balance in 3 years, with interest at 8 per cent. per annum. Liberal discount for cash, or part will be exchanged for city property.

For further information, apply to SOMES & WILLIAMS,
no2 Real Estate Agents, No. 12 West First st., or to WILL BEACH, on the tract

NEW HAMMAM BATHS,
74 and 76 S. Main Street, South of Cathedral

CATARRH!

Throat Diseases, Bronchitis, Asthma, and Consumption, together with the Eye, Ear and Heart, successfully treated by

M. HILTON WILLIAMS, M. D.,
M. C. P. S. O.

Graduate of Victoria College, Toronto, Ontario; Licentiate Physician and Surgeon and for the State of Michigan; also member of the College of Physicians and Surgeons of Ontario; for three years Associate Physician of the Chicago and Cincinnati Throat and Lung Institute. For fifteen years head still, proprietor of the Detroit Throat and Lung Institute, and for several years Consulting Physician of the Orillia Asylum and Health Resort at Toronto. Over 60 000 cases treated by us during the past nineteen years.

OZŒNA.

Ozœna is the professional or technical name given to an offensive form of catarrh, in which ulceration has eaten through the membrane lining of the nose to the cartilage of the bone. Any form of catarrh may result in ozœna, but it most frequently occurs in those who are actually recovering from the disease. It takes place through the nostrils or through the throat, and is generally of a yellowish-green, purulent color, frequently tinged with blood, and almost always attended by an offensive smell. In the language of the Medical Journal of Philosophists, "the disease is one of the most loathsome to which the sufferer and the physician has to encounter. In bad cases the breath of the patient becomes so very filthy as to isolate him entirely, and render him an object of disgust even to himself."

In some instances the nose becomes separated and slough off, leaving deep, unhealthy ulcers, which secrete a blood matter, and are extremely difficult to heal.

After ozœna has continued some time the sense of smell becomes partially, and at last entirely lost.

Deafness is one of its most common consequences, and results from its extension through the eustachian tube to the internal ear.

Pains in the head and over the frontal sinuses, impairing memory, and even insanity frequently springs from its extension to the brain.

The great danger, however, because the most common, is that it will extend downward and affect the lungs. In most cases of pulmonary disease catarrh is present in some degree, and in many instances it causes a large share of the patient's discomforts.

Besides these grave consequences, all of which are liable to spring from neglected catarrh or ozœna, there are others which, if less dangerous, are sufficiently unpleasant. It causes a great unhappiness to thousands of both sexes, by isolating them and preventing their settlement in life. An offensive running from the nose, with foul breath, is about as great a calamity as can befall young people. Every disease of this kind can be cured by our new system of practice. References given to over 300 families in this city and county.

CONSULTATION FREE.—Those who desire to consult me in regard to their cases had better call at the office for consultation and examination, but if impossible to do so, can write for a copy of my Medical Treatise, containing a list of questions. Address

The Times.

Office—Temple, Main and New High.

THE first volume of General Grant's book is out.

C. P. HUNTINGTON has been generous to suffering Galveston to the extent of a $5,000 gift.

THE JOHN BULLS have defeated King Thebaw's force in Burmah, and are marching 'hon, you know, hinto the hinterior.

WOMEN are becoming more and more a prominent factor in the great movements for the advancement of the age. The ladies of Los Angeles are not behind the sisterhood of other cities in this respect.

REGISTER! Election time comes on space, and the saloon men and their sympathizers are letting no grass grow under their feet. Let every good citizen see that he is as prompt.

MORE heavy fighting has taken place between the Servians and Bulgarians, and this time the latter appear to have got the weather gauge on their esteemed enemies by considerable of a majority. Prince Alexander of Bulgaria, is reported wounded in the last battle.

UNDER the decision of the Police Judge, the Chief of Police of Cleveland has issued an order for closing the saloons all day Sunday instead of until 2 o'clock, as heretofore.

HAS that city no League of Freedom to boldly protest against the infringement of the saloon-keepers' rights?

CREED HAYMOND writes to Attorney-General Marshall protesting that the railroad companies mean to do exactly the right thing in the matter of their delinquent taxes. Well, that is just what the people of California have been waiting and waiting for them to do this long while.

THE rain has fallen in a way to do the country great good. A week or two now will work a wonderful transformation in the whole face of nature in this section. Strangers in our midst will soon see what the real attractions of a Southern Californian winter consist of.

IT has been seriously asserted by clear-headed and sagacious business men that it would be cheaper to keep the Indians at a fashionable hotel than to deal with them according to our usual governmental policy. But the difficulty is, we cannot take from them what belongs to them by right, for the sake of retrenching the expense of the government in caring for them.

SAN DIEGO yesterday celebrated, with much enthusiasm, éclat and eagerness, the completion of the California Southern Railroad, which gives that city the benefits of a through transcontinental line by the Atchison, Topeka and Santa Fé, or Atlantic and Pacific system. The event is properly recognized as a very important one to San Diego and the coast. The TIMES prints an interesting dispatch describing the main feature of the celebration, and also presents on this page a map showing the Atlantic and Pacific line and its connections, for which—the map, not the connections—we acknowledge our indebtedness to the San Francisco Chronicle.

"GENERAL MCCLELLAN'S views concerning the operations of the Army of the Potomac, while he had command of it, are said to be in course of preparation. Nothing can add to or take from his military standing. He did not succeed. That fixes his military status. Any guess-work that his memoirs may contain as to things that might have been accomplished had the orders been thus and so, is purely in the nature of mental exercise." Those remarks, by an Ohio cotemporary, the Columbus Dispatch, got straight to the core of the matter. They "size up" Little Mac as a soldier in an exact and effective manner.

ERRATA.—In the elaborate sketch of the Atlantic and Pacific Railroad, reprinted in last Thursday's TIMES from the San Francisco Chronicle, occurred three errors, viz: 1. Under the subheading of "The Work Retarded," in the fourth and fifth lines the words, "it has done more than this" should have been omitted. 2. Under the sub-heading of "Advantages and Business," the sentence beginning "To its assumed revenue from this source is to be added," etc., should read: "To its *assured* revenue," etc. 3. Under the sub-heading of "Directory of the Road," third paragraph, the last sentence should read: "The distance between Albuquerque and Eastern points will be *shortened* about 300 miles."

THE DOMINION.

Excitement Over Riel's Execution Still High.

MONTREAL, Nov. 18.—The former comrades of Riel in the school he attended here have resolved to wear mourning for a month in respect to his memory.

Le Monde this evening issued a bulletin which stated that Madame Riel, in a dispatch, had expressed her willingness to have her son interred by the side of the grave of the patriots of 1837. It is proposed to invite Madame Riel and family to take up their residence in this city, and establish a fund for her support.

A deputation of the members of the Club Cartier has waited on Senator Lacaste and requested him to accept the leadership of the Conservative wing of the French National party, which is built upon the Riel question. Mr. Lacaste asked a few days' time to consider the matter. He also intimated that he would first require to hear explanations.

French Canadian students, together with some quarrymen and others, numbering 800, paraded the streets to-night, shoved the people from the sidewalks, frightened horses, and committed other aggressive acts, and threatened violence. It is stated that to-night's demonstration is the result of information which the students of Victoria University had received during the day that the students of McGill, the English university, intend to burn Riel in effigy on the Champs de Mars to-night.

THREE VICTIMS.

Shocking Tragedy in Edgefield County, S. C.

CHARLESTON, S. C. Nov. 18.—A terrible tragedy was enacted in Edgefield county to-day. A man named Robert Jones ocenpied some land rented from his relatives, Charles and Edward Pressly. They notified him that as he could no longer pay rent he must vacate. To-day Jones went to the field where Edward Pressly, aged 80, and his sons, Charles and Edward, jr., were ploughing, and shot Charles dead. Edward started in pursuit and Jones stabbed him mortally with a knife. Jones then came to the courthouse, entered the jail and surrendered, remarking that he had killed three of the best men in the country. This account is from the News and Courier correspondent who visited the scene. Another account is that the Pressleys went to the field where Jones was working and that Jones killed them in self-defense.

Germany Assents.

ROME, Nov. 18.—Germany has acquiesced in the Pope's settlement of the Caroline question. It only remains now to give it definite form.

MAP OF THE ATLANTIC AND PACIFIC RAILROAD AND CONNECTIONS.

HAPPY SAN DIEGO.

The Ambitious Little City Wild With Joy

OVER THE CALIFORNIA SOUTHERN ROAD.

Whose Final Completion is Celebrated by the Citizens with a General Jollification.

Associated Press Dispatches to The Times.

SAN DIEGO, Nov. 18.—The city is crowded with visitors who have come to take part in celebrating to day the completion of the California Southern Railroad, which gives the Atchison, Topeka and Santa Fe system a through transcontinental road to the Pacific Coast, with a terminus at this point. There are very large delegations of visitors present from Riverside, Colton and San Bernadino, and a number of persons from the East, and Arizona and New Mexico. The storm delayed the steamer Orizaba which had a large excursion from San Francisco on board, as well as delegations from way ports. The parade in the forenoon under the direction of General T. T. Crittenden, Grand Marshal, was very fine. The streets along the line displayed brilliant and varied decorations. Flags floated from every staff in the city, and from the shipping in the bay.

THE LITERARY EXERCISES opened at 11. The pavilion was densely packed, as well as all the ground around it within hearing distance, an hour before the meeting opened. A. E. Horton presided. An address of welcome was delivered by Hon. W. W. Bowers, after which Hon. S. O. Houghton, of San José, was introduced and delivered the address of the day, which was a departure from the beaten track of addresses on such occasions, and was listened to with close interest and frequently interrupted by applause. Addresses were also made by General Thomas S. Sedgwick, of the Atlantic and Pacific Railroad; S. C. Evans and L. M. Holt, of Riverside; L. C. Gunn, of San Diego, and A. N. Gill, of San Bernardino. Letters were read from distinguished gentlemen from different parts of the United States and California. The exercises closed with the reading of an original poem by Philip Moore, and enthusiastic cheers for the pioneers of Southern California and the builders of the railroad.

THE EXHIBITION OF PRODUCTS.

At 2 p. m. the exhibition of country products at Armory Hall was formally opened with an address delivered by Major Levi Chase, one of the principal fruit-growers of El Cajon valley. This display surpassed the magnificent one made at the county fair last month. The horticultural exhibit is pronounced one of the finest ever made in the State. The floral display is really wonderful in profusion and brilliant effect. The exhibition hall is densely thronged with people. Many visitors are forming small groups for excursions to such interior points as are within a few hours' access to the city.

The programme for to-morrow includes an excursion around the bay and outside by the steamer Orizaba, and an excursion in the afternoon up the bay shore to National City. The exhibition of country products will be kept open all day to-morrow and in the evening.

Evening's train brings a fresh throng of visitors. Hotels and boarding-houses are crowded, but through the able management of the citizens' committees, comfortable accommodations are found for all comers with scarcely any delay. Business is entirely suspended, the day being observed as a close holiday. The occasion is recognized as the most important in the history of San Diego, and the utmost enthusiasm prevails among citizens and visitors alike. The weather is very clear and bright after the rain of yesterday.

This evening a general reception was held at the Horton House, after which there were additional exercises at the Exhibition Hall.

AT LAST.

Oregon Chooses a Senator—J. H. Mitchell the Man.

PORTLAND, Or., Nov. 18.—J. H. Mitchell was elected Senator on the third ballot, the Democrats flocking to him.

Mitchell's vote on the first ballot was 27; George H. Williams, 14; scattering, 11. The Democrats voted solidly for Slater.

On the second ballot three Republicans changed to Mitchell, making him 41 votes.

Then, as per agreement last night, seventeen Democrats voted for Mitchell, making him 47 votes. It required 46 to elect. After this there were other changes, the ballot officially being: Mitchell, 55 (of which 38 were Republican and 17 Democrats); Williams, 13; Slater (Democrat), 20; scattering, 2.

The Democrats who voted for Mitchell, in justifying their voting for a Republican, state that he has pledged himself to support the Democratic national administration in whatever may be required of him. They voted for him under authority of the caucus and so made his election a party act.

The Railway Tax Cases.

SAN FRANCISCO, Nov. 18.—Creed Haymond has written Attorney General Marshall a letter referring to the railroad tax cases, which closes as follows: "The pretense is made in some quarters that the railroad companies have in some manner gained a legal advantage by making part payments. That even this flimsy pretense may be removed, I am willing at any time to receive the money (about $1,000,000) which we have held so long, and to stipulate that the orders under which the payments were made shall be set aside, and that the cases shall stand as though the orders and payments had never been made."

The Rainfall.

SAN FRANCISCO, Nov. 18.—The rainfall in this city to-day to 8 p. m. was .52 of an inch, making a total of 4.25 inches for the present storm, and .75 inches for the season, against 3.18 inches to the corresponding date last year. It is still raining to-night, with good prospects, however, of clearing up before daylight.

SAN BUENAVENTURA, Nov. 18.—No cessation of the southeast storm. The rivers are impassable. No mails from anywhere.

The Powers Murder.

HOLLISTER, Nov. 18.—At the conclusion of the examination of the witnesses on the part of the prosecution in the Powers murder case, to-day, the defense moved for a dismissal on the ground of insufficient evidence. The court promptly denied the motion, and all of the defendants were held to answer without bail, except Stoice and Page, who were allowed to go on furnishing $5000 bonds each.

Huntington's Gift to Galveston.

NEW YORK, Nov. 18.—C. P. Huntington has telegraphed to the Mayor of Galveston to draw on him at sight for $5000, in aid of the sufferers from the recent fire.

WASHINGTON.

A Sensational Story Denied—National Notes.

NEW YORK, Nov. 18.—A Washington special says: "The President has called on the State Department for a full statement of our relations with Germany and Austria, in regard to the treatment of naturalized citizens of the United States in those countries. It is understood that the President is determined that the United States shall no longer remain inactive upon this question. In the event of Germany and Austria ignoring our protests, it is believed that a severance of all diplomatic relations with these countries will rapidly bring about a crisis. It is not probable that the President will mention the trouble in his message, but he will make powerful suggestions about the need of a new navy and the alarming condition of our coast defenses.

THE REPORT DENIED.

WASHINGTON, Wednesday, Nov. 18.—The State Department officials positively deny that the President has made any request for papers in regard to the condition of our naturalized citizens in Austria or Germany, or that there is any truth whatever in the Washington specials to New York papers to-day.

LAND TITLES IN NEW MEXICO.

Governor Edmund G. Ross of New Mexico, in his annual report, dwells upon the fact that immigration into that Territory is restricted by fear as to the validity of land titles there. He writes how Spanish and Mexican grants have been made to cover tracts vastly larger than was originally intended, and that great quantities of land have been fraudulently watered through forgery and perjury. He recommends that Congress appoint a commission to quiet titles. The Indian troubles of the Territory are treated at length.

REPORT ON COUNTERFEITERS.

The Chief of the Secret Service Division, in his annual report to the Solicitor of the Treasury, shows that during the last fiscal year 444 arrests were made by operatives of the service, assisted by local officers, a large majority of which cases were for passing, dealing in or manufacturing counterfeit money. The amount of counterfeit money captured during the year was $305,580, mainly in flash notes. A large amount of plates, dies, moulds and counterfeiting material was seized and destroyed. The Chief of the division expresses the opinion that there are now in the hands of counterfeiters about $100,000 in base money, of the following character: $20 silver certificates, $10 United States notes, $10 notes of the Third

ENLARGED SHEET

THURSDAY, NOVEMBER 19, 1885.

Natural Gas—Great Possibilities for Los Angeles.

One of the most important discoveries that has recently been made in Southern California is the fact that natural gas exists in various localities. It is not yet known whether it can be developed in paying quantities, but the indications are very favorable, and should a well of any considerable magnitude be discovered in the vicinity of this city the value of the find can hardly be over-estimated. The people of this section have yet scarcely an idea of the great uses for which this fuel and illuminant can be made available. In this respect the experience of the people of Pittsburg, Pa., is somewhat similar. According to a correspondent of the Cincinnati Enquirer, although her leading citizens had known of the existence of natural gas in the towns of the adjacent oil region for the past twenty years or more, they made no motion towards a scientific or practical investigation of its value from an economic standpoint but looked upon it as one of nature's freaks, scarce worthy of a thought. Nine years ago a couple of manufacturing firms made the first experiment, which, in time, showed such results that about a year and a half ago the whole country about Pittsburg became "gas mad," so to speak. Nearly a hundred companies were organized, but, as is frequently the case on the Pacific coast, a good thing was overdone, and at the present time three large companies handle the whole business.

The total mileage of pipe thus far laid in Pittsburg and vicinity is in the neighborhood of six hundred miles. The lines used through the city are twenty and twenty-four-inch mains. From these mains are now being laid a net work of six, eight and twelve-inch service lines for supplying domestic consumers. Natural gas is now used in the great majority of the iron, steel, copper, brass and other metal working establishments, as well as the glass works of Pittsburg, and it is coming into use rapidly in all stores, office buildings, etc. Of private consumers there are now some 1500, with 1000 to 1500 applications in.

The correspondent of the Enquirer sums up the value of natural gas as follows:

The new fuel has now been in use a sufficient time to demonstrate several facts. The first of these is, that there is little further use for coal here. The amount of the latter displaced daily by the consumption of gas is about 10,000 tons, or 250,000 bushels, equal to the amount mined by 2500 miners averaging 100 bushels per day. A number of mines heretofore worked to supply the Pittsburg market have been temporarily abandoned. The retail price of coal in this market has fallen about 35 or 40 per cent, and the dealers are glad to make even greater concessions to secure customers. The next fact is that, with the heat from natural gas, a better quality of iron, steel and glass can be made, while the economy in cost is marked, and gives local manufacturers a great advantage over their competitors away from the gas belts.

The cost of drilling gas wells at Pittsburg to an average depth (1350 feet) is about $1.25 per foot. The estimated cost of laying a six-inch pipe is seventy cents per foot. The wells are generally maintaining their product very well. The pressure at the wells sometimes approximates 300 pounds per square inch. Under the Westinghouse improved system this is reduced in the main to a pressure of five pounds, and in the service pipes it can still be lowered to an ounce to the inch if desired. It appears that natural gas, being largely compounded of marsh gas, has great heating properties, but is not sufficiently rich in carbon. For an illuminant, unless carburetted, it is unsuitable for lighting within buildings, though it is used quite extensively where other gas cannot be obtained. As a fuel material, gas is said to be as much superior to coal as coal is to straw. On the score of cheapness its superiority is illustrated by the action of a manufacturer at Findlay, Ohio. Under the coal regime his fuel cost him $3900 a year. With natural gas as fuel it cost him $300 per year. Another point in favor of the gas as fuel is the total absence of smoke, smut, ashes, cinders and dirt.

These facts all make it apparent that there should be a determined effort to prospect those localities in Los Angeles and adjoining counties, where natural gas is known to exist. If the discovery should be made that we have at our doors a fuel which has almost driven coal out of the market in such a great manufacturing center as Pittsburg, what an opportunity would be afforded to develop the manufacturing industries of this section and make good use of the raw materials with which Nature has so abundantly endowed Southern California. The Manufacturers' Association, the Board of Trade and other organizations might well take this matter in hand, and should their efforts be crowned with success, what a future it would open up for Los Angeles and our neighboring counties in the petroleum belt.

The straight-out Republicans, who have been claiming the earth, must roost lower.

The Mugwumps can crawl for contentment into their kid gloves.

While the unterrified sing:

Sound the bold anthem!
War-dogs are howling!
Proud bird of Liberty
Screams through the air!
—(Louisville Courier Journal.

Thus triumpheth the ungrateful Democracy, and thus it singeth in the ears of the servile Mugwump, who hath aided it to win political victory.

THE number of real estate transfers noted from week to week in the Santa Barbara papers would indicate a good degree of business activity in the city by the sea.

The Outlook.

The present indications are for a prosperous season in this section of the State. At no period within the past year has business in Los Angeles been at a particularly low ebb. In proportion to our population no city in the country has been more prosperous than we, and the present outlook for the future is particularly cheering. With the coming of the rain the general feeling of cheerfulness is strengthened, business activity will be quickened, and enterprise in every direction will receive a fresh impulse.

The magnitude and variety of our improvements is attracting attention everywhere. A city that can build two or three cable roads in the course of a year, as Los Angeles proposes to do, multiply her means of communication with the outside world, build schools and colleges and churches, open new streets, level hills and fill up valleys, erect hospitals and open medical universities, increase her population by a constant influx of immigration, multiply her industrial enterprises, and develope new and valuable resources, impresses people abroad as a city possessing a future of advancement and magnificent growth. It is to such a city that capital naturally turns, and men of sagacity and enterprise direct themselves. In the possibilities of such a city men have faith, and faith supplemented by capital and active endeavor is universally followed by the greatness of achievement and the grandeur of success.

TRIFLES OF THE TIMES.

The rain, the rain, the blessed rain!
It falls in pleasant showers,
It wakes the sleeping grass and trees,
And stirreth up the flowers.

It fills our gutters and our streets,
And like a Mugwump high
Through dirty by paths, not content
Till it in office lieth.

The Democratic office-seekers should not be discouraged. They can get free permits to hunt autumn leaves in the parks.

A near-sighted hen is reported up in Oregon. She mistook sawdust for cornmeal and laid a nest full of pine knots.

A paper was read Thursday before the District Medical Society purporting to prove that there has been an alarming increase in the number of insane persons in Ohio in the past few years. It probably comes from the prevailing fashion among many people of sleeping under crazy quilts.—[Ohio State Journal.

NEIGHBORHOOD NEWS.

SANTA ANA VALLEY.

NEWSY NOTES FROM OUR SOUTHERN NEIGHBORS—PROFITS OF FRUIT-GROWING—TUSTIN—WESTMINSTER—GARDEN GROVE.

Correspondence of the TIMES.

SANTA ANA, Nov. 17.—Daniel Halliday, president of the Commercial Bank of Santa Ana, will modestly rake in about $6000 this year from his fruit crop, raised on twenty acres of land adjoining the town of Santa Ana, which he purchased a few years ago for $50 an acre. And still those who are interested in booming other sections of Southern California will have confiding strangers believe that there is "so much alkali" in the Santa Ana valley "that they would lose their time by going down there to look around." "I'll take alkali in mine," every time.

Among the new enterprises of the Santa Ana valley which seem to be thriving can be mentioned: Eccles' pork packing house, Halsell & Rogers' pork packing house, the Semi-tropic drier of the Tustin Fruit Company, Leslie's raisin packing house (known as Snow's packing house), the Santa Ana Valley Fruit Company's packing house (fronts of all kinds), to say nothing of many others in contemplation. The readers of the TIMES will in subsequent issues see full descriptions of these establishments.

S. S. Talkington recently sold for $4300 seventeen acres of land on the Santa Ana river, three miles from Santa Ana, after selling this year $500 worth of grapes from his three-year-old vines, and only a part of the land was in vines. A long-headed Teutonian made the purchase.

A good portion of the firewood used in the Santa Ana valley is cut from gum trees only five and six years old, which are from one foot to twenty inches in diameter and very tall. *Verbum sap. sat.* (This is not meant for the *sap* of the gum tree, mind you—see?)

Your correspondent has been treated shamefully by Jim Layman, of the Santa Ana Hotel, and the aforesaid Layman has been notified that if he does not behave himself in the future, the TIMES, at an early date, will contain the full particulars of a huge practical joke played on him by the Santa Ana boys, which was enjoyed by everybody except Layman.

A very extraordinary freak of nature can be seen on Mr. J. D. Gage's place, four miles from Santa Ana, on the Tustin school-house road. Four crops of apples—from a large, ripe apple that will not go into a quart bowl down to a blossom. Mr. G. says his "trees are crazy, that they don't know what they are doing." The writer can vouch for this, for he picked them from the trees and sent them to General E. E. Hewitt, of Los Angeles.

Fifty acres of alfalfa on the land of Mr. J. C. Fifield, near Santa Ana, yielded $3900. The hay was cut three times, then allowed to grow to seed, when it was thrashed for the seed. The hay and seed brought the above amount, and yet this land was bought a few years ago for $70 an acre. Where's your alkali?

Three-year-old vines on Mr. C. E. French's place, near Santa Ana, paid him $150 an acre this year. He sold the grapes in the field. And yet Mr. F. does not irrigate. How is this?

The fruit-growers of Westminster say that the apples that pay best in that section are the four following varieties: White Winter Pearmain, Yellow Newtown Pippin, Rhode Island Greening and Yellow Belle Flower. Mr. Strong states that he picked 900 pounds of Rhode Island Greenings from one tree this season. At one cent a pound a ten-acre farm of these apples—but, let some one else do the figuring.

Garden Grove is stepping to the front with her fine grapes, the success of which crop is no longer an experiment. "The more the merrier." Garden Grove is appropriately named.

Dr. Davis, of Humboldt, arrived in Tustin a few days ago, and is breathing the balmy air of that delightful little town with a sigh of relief. This land of

Spraying orange trees in the Santa Ana valley costs about fifteen cents a tree, where the contractor furnishes everything. Whale-oil soap, in the proportion of 45 pounds to 100 gallons of water, is used. Two trees are sprayed at the same time by a double-action pump, which is mounted on a wagon and worked by hand. The Republican and Democratic parties, represented by Messrs. Kissel and Hines, both of Tustin, were running the "machine," when last heard from. I thought the Democrats alone were in power.

If the many excursionists who are visiting Southern California would take a short trip down the Santa Ana valley and happen in at Tustin City one of those bright sunny mornings, a stroll or a drive through that enchanted garden would cause them to cease sighing for the "sunny sky of Italy."

SANTA ANA.

NEWTON'S WEEKLY NEWS BUDGET.

Correspondence of the TIMES.]

SANTA ANA, Nov. 15.—The Santa Ana Valley Fruit Company are working quite a number of hands in packing the large quantity of raisins already brought to this packing house. A large showy sign extends the whole length of the north end of the brick building occupied by this company. The business standing and capital of the officers and stockholders of this company are a guarantee of success and the liberal patronage already bestowed shows that the people have confidence in it.

Pixley & Airee of Orange report that they have all the raisin packing that they can do up till February. They are working some thirty hands and are packing 250 boxes per day. Their packing is done nicely, and they get orders for all the raisins they can furnish to the trade.

A. Guy Smith is shipping most of the English walnut crop of this section to the Eastern market. He is paying 7½ cents per pound.

Ira Chandler, one of our popular grocers, is reducing his large stock of groceries at cost, with a view of moving his present store house onto his lot on East Fourth street.

Business is lively on our streets and buildings are going up briskly.

A gentle zephyr from the mountains passed this way yesterday. It aided very much in finishing off raisins.

The grown-up daughter of F. P. Bowdin in Gospel Swamp died early this morning of consumption.

The health of the community is good.

W. A. Bell and John Dance, of York, Neb., have just arrived here with their families, with a view of settling in our valley. Others from the cold regions of the East are here prospecting, with a view to settlement.

Peter Eschelbach's winery has been placed under a keeper by the Internal Revenue Department for some crookedness. Deputy Gibson, from San Francisco, of the Internal Revenue Department, is here invoicing the goods at the winery. NEWTON.

COVINA.

NOTES OF PROGRESS.

Correspondence of the TIMES.]

COVINA, Nov. 14.—The work of cementing the Development Company's ditch has practically commenced. Twenty men are employed to prepare the ditch for the cement, and about the same number are at work on the big reservoir and the tunnel at the head of the ditch. The decision of the court made it necessary for the company to build about one hundred feet of ditch at the point where the water is taken out of the river, and they have the work almost completed. Their work from the first has been characterized by a thoroughness that is commendable, and this last piece of engineering is not least. They have followed the base of the mountain closely to a point near the stream, and are now tunneling through a point which will act as a protection to their ditch in times of flood. A gate will be so contructed at the entrance of the tunnel next the river, that all the water can be turned out of the ditch at a moment's warning, thus preventing the ditch from being washed away should the river rise suddenly. The company has some wise heads at the helm. One carload of cement has arrived, and another is directed next week. J. S. Phillips, the superintendent of the work, informed your correspondent yesterday that it was the company's intention to put in the lateral ditches immediately, several in number, extending from the main ditch and reservoir westward two miles, all to be cemented in a substantial manner and bridged at the crossings. This will be a great improvement over the present system of open ditches.

There is to be built a hotel in Covina by a Mr. B. D. Riche, of Downey.

D. Houser and family, of Stockton, are expected to arrive on the 15th to take possession of their late $10,000 purchase near Covina, and will commence the erection of a $5,000 house, besides other improvements.

The Covina Social Club have made definite arrangements to erect a hall in Covina. It will be 30x60 feet, with a stage and green-room.

The valley has never had such a bright future as at present, and we confidently look for lively times out here during the next few months. D. U. P.

SANTA BARBARA.

Impressions of a Visitor—Good Words for the City by the Sea.

SANTA BARBARA, Nov. 6, 1885.

To our personal friends and others whom it may concern. We have been at this delightful little city long enough to justify us in saying that we are not only pleased but delighted. We have been to many nice and beautiful places in California—Santa Cruz, San Jose, Monterey, Los Angeles and San Diego—and we have a good word to say for all of them, for though differing in some respects one from the other, they all possess good, and, to us strangers, many rare qualities, which gratify and delight us. Contrasted with the East and with any other parts of the North visited by us, they are unrivaled, and our wonder is that any part of the world could combine so much that is good. Contrasted with each other, we are compelled to say that this sweet little town and vicinity has no peer that we know of.

Take the town site, sloping gently up from one of the best wharves on the entire coast, to the grand old Mission, no place can be found where natural drainage is more perfect. In an hour after the heaviest rain you can go about all over the town without any inconvenience from mud. Nature has done her best, and succeeded.

Take the pretty little homes of the families, and those devoted to the comfort of guests, as to both location and style, and you will find neatness and comfort. Take the hotels, from the Morris House to the Arlington, and if there can be found anything better elsewhere, we do not know it.

The entire sewage system of the Arlington and Jellwood has been improved until it seems impossible to make it better. Let any guest of either of those houses examine for himself, and deny it if he can. We have seen nothing to equal it. No sewer gases are possible in these houses. We give this statement of facts for those who contemplate visiting this place. Do not take much stock in the reports of unfriendly rivals. This place is charming, and you will find it so. Come to Santa Barbara, if you want to, and whenever you wish, for in winter or summer you will be pleased. Come when you may, you will find a welcome from every little house and every big one; from the merchant, who has something to sell; from the banker, who will be glad of your exchange on the East; from the keeper of the little eating house, who will be glad to cook you a plate of oysters, and from the big hotel, whose doors will wing open with a welcome as big as your heart to receive it. Come! and, aside from considerations of business or money-getting, you will find the welcome of many a cultivated man and woman, who live at ease in the little city by the sea. Come right along, and when you go away you will thank me for this again and again.

Truly your friend, GEORGE SIMMONDS.

Gentlemen's clothes cleaned or dyed and repaired at short notice at MARTEEN'S, No. 9 Aliso street;

The W. C. T. U. meets every Thursday, at 2½ p. m., at Presbyterian church, corner Second and Fort streets.

Dentists.

1882. —ESTABLISHED— 1882.

Dr. L. W. WELLS,

DENTIST, HAS REMOVED HIS office to 23 South Spring street, Bloedner B ock. Practiced 25 years. Has best work at moderate prices. Teeth extracted without pain. Special attention paid to filling teeth. 41-tf

Dr. C. V. Baldwin,

DENTIST—PRACTICED TWENTY YEARS. Painless extraction of teeth. Special attention to fine filling and plate work. All work warranted. Prices reasonable. Rooms 11 and 13 Wilcox block, 21 First st., between Main and Spring. sep15 tf

Dr. H. E. Small,

DENTIST, NO. 40 N. SPRING ST., Wilcox block, Los Angeles. oct15 tf

Dr. S. H. Tolhurst, Dentist.

PAINLESS EXTRACTION BY VITALIZED air. Filling, regulating and waterwork warranted perfect and at Eastern prices. ROOM 2, OVER POSTOFFICE. 419 dkw

W. H. Musser. M. D. D. D. S. D. R. Wilder, D. D. S.

MUSSER & WILDER, DENTISTS, PARLOR 11 Nadeau block. Executes all branches of dentistry; also do away with the extraction of teeth, restore all firm, decayed and broken roots to their original usefulness and beauty, and insert teeth without a plate. Fine filling a specialty. Vitalized air or nitrous oxide gas administered. d13

LONG BEACH HOTEL.

OPEN THE YEAR ROUND

The Most Desirable Seaside Resort on the Coast.

Only Twenty-two Miles from Los Angeles.

Finest Driving Beach in the World.

The hotel is peasantly situated, only 100 feet from the ocean, having accommodations for one hundred and seventy-five guests. The rooms are nicely furnished, single or en suite; electric bells, hot and cold baths. None but first-class cooks and waiters employed. Telephone connects with city. Trains twice each way daily.

COWLEY & MITCHELL,
PROPRIETORS.

EVERY-DAY EXCURSION

EXCEPT SUNDAY.

TO SIERRA MADRE VILLA AND RETURN,

Via the Los Angeles and San Gabriel Valley Railroad,

PASADENA, SUNNY SLOPE AND SANTA ANITA.

A delightful trip, saving two-thirds of the long drive formerly necessary, while presenting to the tourist more of the beauties of the San Gabriel Valley and foothill region than can be obtained in ordinary vehicles. It includes passage by rail to Raymond (site of the great Raymond Hotel, now in course of erection), thence by fine four-horse stages for parties through the orchards and gardens of Pasadena and its environs, the famous ranchos of Rose and Baldwin, and through their grand avenues, vineyards and groves to the Sierra Madre Villa.

Fare for the Round Trip, $2.75. Including Luncheon at the Villa.

Other Special Excursions by stage from Pasadena to San Gabriel Mission via Wilson's Canyon, Devil's Gate and other popular resorts and picnic points, arranged at short notice. Rates on application.

Regular round-trip tickets to stations on the road, permitting unlimited stay at any point—Pasadena, Raymond, etc.

Trains connecting for above excursions leave Los Angeles (Downey avenue Depot) at 8:30 a. m., and arrive at 4:45 p. m.

Cars of Central Street Railway connect for all trains.

JOHNSTON'S FLUID BEEF.

A CONCENTRATED PREPARATION FOR

NUTRITIOUS BEEF TEA.

This preparation is steadily gaining in popular favor, and as its merits become better known it is destined to supersede every other Extract of Meat in the market. In Britain, the United States and Canada it is already widely known and appreciated, and the reason is not far to seek. It has been subjected to analysis by some of the first chemists of the land and pronounced A PERFECT FOOD. Unlike other Extracts, Fluid Beef is no mere stimulant, imparting a temporary excitement, to be followed by reaction and depression, but a highly nutritious food—not a "mere meat flavor," but supplying "all the nutritious elements which the meat itself contains."

Shortly stated, the claims advanced for this Preparation, and which have been amply attested by hundreds and thousands of the most competent judges, are—

1. It is a REAL FOOD, not like other extracts, a mere stimulant. Like them, it imparts stimulus to the system, but adds, what they have no power to supply, nourishment for brain and bone and muscle.

2. IT IS SO DIGESTIBLE that it can be retained and assimilated by the weakest stomach. An infant may take it with safety, and it will rest on the stomach of the invalid when steadily every other food is rejected.

3. It contains, in a highly concentrated form, EVERY ELEMENT OF A PERFECT FOOD. It gives tone to the nervous system while it creates sound muscle and solid flesh.

4. It is a GENUINE BEEF PREPARATION. In its manufacture nothing is used but the very finest parts of the beef, and every package is guaranteed to be absolutely pure and free from all adulteration. Any food you may be used to, if you find Johnston's Fluid Beef is present in its distilled extract,

5. It can be used at any moment, and with the least possible trouble. A little boiling water, and it is ready for use in the nursery, the sick room or at the household table. No admixture boiling greatly improves it.

It is slightly more expensive than the most noted medical men in the world.

For sale by grocers and druggists.

Moving day is generally dreaded by the head of the house. Trying to carry a bureau up stairs while your wife stands by and tells you not to scratch the paper on the wall, generally brings a pain in the back, but it can easily be cured by St. Jacobs Oil.

Los Angeles Soap Company.

The Los Angeles Soap Factory is one of the oldest manufacturing establishments in the southern portion of the State, having been started about a quarter of a century ago. It has been under the management of its present proprietors, Messrs. Forthmann & Berg, twelve years, and they have brought it up to a high standard. Their toilet and laundry soaps are (among all over the southern country, and their brown soap is in particular in demand by housekeepers. They deal in caustic soda, soda ash, potash, tallow, hides, pelts, wool and furs. They also manufacture shale oil soap, which has been tested and used extensively by the most prominent fruit growers of southern California, and has proved a most effectual insecticide. The office and warehouse of the Company are located at 40 to 42 Banning street and 307 First street.

All aboard for the East, December 3. For particulars call on or address Warner Bros. & Crosby, 302 North Main street.

Encourage Those Industries

That increase the value of your real estate. Every person who has a dollar in land, or buildings, should know that in the petroleum industries of our county lie the future greatness of this city. The Oil Burning and Supply Company, with their Edwards oil burners, are increasing the demand for our petroleum product, and giving to the public a fuel unrivaled in economy. Go wise, therefore, and buy an Edwards oil burner.

Fire Insurance.

The undersigned is prepared to issue at once, policies on all desirable risks at current rates in the most substantial California, Eastern and Foreign companies, including the Ætna, of Hartford, Liverpool and London, and Globe, Union of San Francisco, North British and Mercantile of Edinburgh, German American, of New York, and London and Lancashire. WM. A. BOURICIUS,
No. 6 Commercial Street.
Telephone No. 34.

Dr. Henley's Popular Remedy

Has the largest sale, and has relieved and cured more persons afflicted with nervous troubles than any one known remedy. Sold by all druggists and country dealers.

***

Why a Workingman Should Buy an Edwards Oil Burner.

It is cheaper than any other fuel.
It makes a quicker and better fire.
It saves you buying a new stove.
It saves splitting kindling, building fires and packing out ashes. And last, but not least,

It avoids a family row. Any four can send in your return home from your day's work.

Provided, That the Board of Supervisors shall have and retain the right to the possession of each and all of said parcels until the 1st day of January, 1886. The Board reserves the right to reject any and all bids.

C. H. DUNSMOOR,
Clerk of the Board of Supervisors of Los Angeles County, California.

RESOLUTION

OF THE

BOARD OF SUPERVISORS

Of the County of Los Angeles. Adopted November 14, 1885.

ON MOTION OF SUPERVISOR FOORD, the following resolution of the Board of Supervisors of the County of Los Angeles was unanimously adopted, viz.:

WHEREAS, It appears that the property hereinafter described belongs to the County of Los Angeles, and is not required for public use, and that the sale thereof will be for the best interests of said county; therefore, be it

Resolved, That the Clerk of this Board be and he is hereby directed to give thirty days' notice by publication in the Los Angeles DAILY TIMES, a newspaper published in said county, that said property will be sold at public auction, at the door of the Courthouse of said county, on Main street, in the City of Los Angeles, California, on THURSDAY, the 17th day of December, 1885, at 12 o'clock m. of said day, to the highest bidder, for cash.

That said property will be sold in parcels, as follows, to-wit:

The first parcel being situate at the corner of Temple and New High streets, in the City of Los Angeles, County of Los Angeles, State of California, and being Lot No. 1 of the D. G. Stephens Tract, according to the map thereof recorded on page 11 of Book 7 of Miscellaneous Records of Los Angeles County aforesaid.

The second parcel being Lot No. 2 of said D. G. Stephen Tract.

The third parcel being Lot No. 3 of said D. G. Stephens Tract.

The fourth parcel being Lot No. 4 of said D. G. Stephens Tract.

The fifth parcel being Lot No. 5 of said D. G. Stephens Tract.

The sixth parcel being Lot No. 8 of said D. G. Stephens Tract.

The seventh parcel being Lot No. 9 of said D. G. Stephens Tract.

Provided, That the Board of Supervisors shall have and retain the right to the possession of each and all of said parcels until the 1st day of January, 1886. The Board reserves the right to reject any and all bids.

C. H. DUNSMOOR,
Clerk of the Board of Supervisors of Los Angeles County, California.

RESOLUTION

OF THE

BOARD OF SUPERVISORS

Of the County of Los Angeles. Adopted at a regular meeting of said Board on the 14th day of November, 1885.

ON MOTION OF SUPERVISOR LINDLEY the following resolutions was unanimously adopted, viz.:

Resolved, That it is the intention of this Board to purchase for the use of the county the two several pieces of property hereinafter described:

First—From A. H. Judson all that tract of land in the City and County of Los Angeles, California, beginning at the northwesterly corner of Temple and New High streets, running thence in a northwesterly direction along the line of New High street, 85 feet to a point; thence in a southwesterly direction parallel with Temple street, 85 feet to a point; thence, third, in a southeasterly direction, but parallel with New High street, 18 feet to the corner of the two-foot alley; thence, fourth, in a northwesterly direction along said alley, but parallel with Temple street, 85 feet to a point; thence, fifth, in a southwesterly direction, but parallel with New High street, 50 feet to the southwesterly line of Temple street; thence, sixth, in a southeasterly direction along said Temple line of Temple street to the place of beginning, containing therefore the sum of nine thousand dollars.

Second—From Frank Rader and Charles Chamberlain all that tract of land in the City and County of Los Angeles, California, beginning at a point on the southwesterly side of Temple street, said point being on the northwesterly line of New High street, 85 feet from the northwesterly corner of Temple and New High streets, said point being the corner of a lot conveyed by A. M. Stephens to A. H. Judson, running thence—First, in a westerly direction, but parallel with New High street, along the line of said lot conveyed to Judson, 18 feet to a point; thence, second, in a southeasterly direction, but parallel with Temple street, 85 feet to a point; thence, third, in a northeasterly direction, but parallel with New High street, 18 feet to the corner of the two-foot alley; thence, fourth, in a northwesterly direction along said alley, but parallel with Temple street, 85 feet to a point; thence, fifth, in a southwesterly direction, but parallel with New High street, 50 feet to the southwesterly line of Temple street; thence, sixth, in a southeasterly direction along said Temple line of Temple street to the place of beginning, containing therefore the sum of nine thousand dollars.

Third—From Albert M. Stephens that lot of land in the City and County of Los Angeles, California, situate on the southwesterly side of Temple street, beginning at a point distant 85 feet northwesterly from the northwesterly corner of Temple and New High streets, running thence in a southwesterly direction, but parallel with New High street, 50 feet to a ten-foot alley; thence, second, in a northwesterly direction along said alley, but parallel with Temple street, 85 feet to a point; thence in a northeasterly direction, but parallel to New High street, 50 feet to the southwesterly line of Temple street; thence, third, in a southeasterly direction along said Temple line of Temple street to the place of beginning, containing therefore the sum of nine thousand dollars.

Fourth—From Richard Dunnigan that tract of land in the City and County of Los Angeles, California, beginning at a point on the southwesterly side of Temple street, said point being 85 feet northwesterly from the northwesterly corner of Temple and New High streets, said point being the corner of a lot conveyed by Albert M. Stephens to C. N. Wilson, and running thence—First, in a northwesterly direction, but parallel with New High street, along the line of said lot conveyed to Wilson, 90 feet to a ten-foot alley; thence, second, in a southwesterly direction, but parallel with Temple street, 85 feet to a point; thence, third, in an easterly direction, but parallel with New High street, 90 feet to the southwesterly line of Temple street; thence, fourth, in a northeasterly direction along said Temple line of Temple street, 85 feet to the place of beginning. Paying therefore the sum of six thousand dollars.

Fifth—From C. N. Wilson, that lot of land lying in the City and County of Los Angeles, State of California, and being a part of Lot 3 of Wigg's addition to Los Angeles, and being a part of the Spanish grant to Feliz, and bounded as follows, to-wit: Beginning at the northwesterly corner of said Lot 3, and running thence southwesterly, but parallel with Temple street, 85 feet to a point; thence southeasterly, but parallel with New High street, 18 feet to a point; thence northeasterly, but parallel with Temple street, 85 feet to the line of Lot 2; thence northwesterly along said line of Lot 2, 18 feet to the place of beginning. Paying therefore the sum of one thousand dollars.

Sixth—From Mrs. Mary E. Hunt, that lot of land lying in the City and County of Los Angeles, State of California, and being a part of the Spanish grant to Feliz, and bounded as follows, to-wit: Beginning at a point on the southwesterly side of Temple street, said point being 85 feet southeasterly from the southeasterly corner of New High and Temple streets, running thence in a northwesterly direction, but parallel with New High street, 90 feet to a point; thence in a northeasterly direction, but parallel with Temple street, 85 feet to a point; thence southeasterly, but parallel with New High street, 90 feet to the southeasterly line of Temple street; thence northeasterly along said northwesterly line of New High street, 85 feet to the place of beginning. Paying therefore the sum of six thousand dollars.

Seventh—From R. M. Widney, that lot of land in the City and County of Los Angeles, State of California, beginning at a point on the northwesterly line of New High street, 185 feet southwesterly from the western corner of Temple and New High streets; running thence in a northeasterly direction, but along the line of New High street, fifty feet to a point; running thence in a northwesterly direction, but parallel with Temple street, 90 feet to an alley; running thence in a southwesterly direction along said alley, and parallel with New High street, fifty feet to a point; running thence in a southeasterly direction, but parallel with Temple street, 90 feet to the place of beginning. Paying therefore the sum of six thousand five hundred dollars.

The Board of Supervisors will meet to consummate said several purchases on THURSDAY, the 17th day of December, 1885, at 12 o'clock m.

Be it further Resolved, That notice of intention of this Board to make said purchases as aforesaid be given, by the Clerk of this Board, by publication in the Los Angeles DAILY TIMES, for the space of December, 1885, in Los Angeles DAILY TIMES, a newspaper of general circulation, published in the County of Los Angeles.

C. H. DUNSMOOR,
Clerk of the Board of Supervisors of Los Angeles County, Cal. nov13 2w

IN THE SUPERIOR COURT

Los Angeles county. State of California.

IN RE THE ESTATE OF JOHN K. HOFFman, deceased.—It appearing to this Court by the petition this day presented and filed herein, that JOHN G. SCOTT, executor of the will annexed of the estate of John K. Hoffman, deceased, praying for an order of this Court for the sale of the real estate of said deceased, and that said petitioner is the executor named in the will of said deceased, and has qualified as such executor, and that it is necessary to sell the whole of the real estate of said estate to pay the costs and expenses of administration accrued and to accrue. It is therefore ordered that all persons interested in the estate of said deceased appear before this Court on MONDAY, the 30th day of November, 1885, at 10 o'clock a. m. of said day, at the courtroom thereof, in the courthouse in the city of Los Angeles, to show cause why an order should not be granted to said administrator to sell the whole of the real estate of said deceased.

And that a copy of this order be published in the DAILY TIMES, a newspaper printed and published in Los Angeles county, four successive weeks.

October 19, 1885.

WM. A. CHESNEY,
o21tnov25 Judge of the Superior Court.

Notice of Publication of Time for Proving Will, Etc.

In the Superior Court of the County of Los Angeles, State of California—88.

In the matter of the Estate of T. A. Lemon, deceased.

NOTICE IS HEREBY GIVEN THAT MONDAY, THE 30TH DAY OF NOVEMBER, 1885, at 10 o'clock a. m. of said day, at the court room of this court, Department No. 1, thereof, in Los Angeles City, State of California, has been appointed for hearing the application of J. G. West, praying that a document now on file in this office, purporting to be the last Will and Testament of T. A. Lemon, deceased, be admitted to probate, and that letters testamentary, be issued thereon to said petitioner, J. G. West, at which time and place all persons interested therein may appear and contest the same.

Dated November 14, 1885.

SUMMONS.

In the Superior Court of the State of California, in and for the county of Los Angeles.

W. T. English, Plaintiff,
vs.
E. S. Hall, Defendant.

Action brought in the Superior Court of the State of California, in and for the county of Los Angeles, and the complaint filed in said county of Los Angeles, in the office of the clerk of said Superior Court.

THE PEOPLE OF THE STATE OF CALIFORnia send greeting to E. S. Hall, defendant.

You are hereby required to appear in an action brought against you by the above named plaintiff in the Superior Court of the State of California, in and for the county of Los Angeles, and to answer the complaint filed therein, within ten days (exclusive of the day of service) after the service on you of this summons—if served within this county; or, if served elsewhere, within thirty days, or judgment by default will be taken against you, according to the prayer of said complaint.

The said action is brought to recover of you the sum of $3650, the value of 350 shares of stock in the Los Angeles Electric Company, had and received by you from George Chaffey and George Chaffey having assigned the due bill for said stock to this plaintiff, and for cost of suit. Reference is had to complaint for particulars.

And you are hereby notified that if you fail to appear and answer the said complaint as above required, the said plaintiff will cause your default to be entered and take judgment against you for the sum of $3650 and costs.

Given under my hand and the seal of the [SEAL.] said Superior Court of the State of California, in and for the county of Los Angeles, this 5th day of June, in the year of our Lord one thousand eight hundred and eighty-five.

C. H. DUNSMOOR, Clerk.
By A. N. Hamilton, deputy.
Wm. Taylor English, attorney for plaintiff.

Weather Report.

Local Bulletin.—At 4 a. m. yesterday the thermometer registered 60, at noon 69, and at 7 p. m. 65. Barometer for corresponding periods, 29.90, 29.95, 29.92. Maximum temperature, 70.1; minimum, 58.5. Weather at 7 p. m., cloudy.

Signal Service Indications.—[By telegraph from San Francisco at 8 last night.] Indications for the succeeding thirty-two hours: North Pacific Coast, generally fair weather, variable winds, shifting to northwesterly. South Pacific Coast, generally fair weather, southerly winds, shifting to northwesterly.

THE CITY.

Dots.

The river is rising rapidly. The Arroyo Seco has increased very little.

The San Gabriel Valley Railroad has not had a single washout thus far.

Money to loan, Wilcox & Robbins, and no attorney fees to pay.

Dr. Todd, dentist, Nadeau block.

A correspondent writes the TIMES from Maynard, in Antelope valley, that they have had a splendid rain, and it is still coming down.

A reliable man with a small family can get a situation to take charge of a stock farm by applying at 19 North Spring street.

"Squire Cigars," Uncle Webster's, 30 N. Spring.

Money to loan, F. H. Barclay.

Offices for rent, Wilcox & Robbins.

Pumpkin-pie social at the Third Presbyterian Church, Hill and Pine streets, Friday evening. Pies will be served and sold in every conceivable variety; also fancy articles for Christmas presents. Music and eleventionary exercises of high merit, and a good social time. Whoever does not come will make a great mistake.

J. Hart, late director of the Cleveland Conservatory of Music, will receive pupils for instruction in violin, piano and harmony, on Wednesdays and Saturdays, from 10 a. m. to 5 p. m., at room No. 35, Roeder's block, S. Spring street. Terms reasonable.

This day, at 11 o'clock, the carriages will start from in front of the Nadeau, sharp. They will take you on to the grounds, the beautiful Ailsambra at Garbial. Recollect, it is a continuation of Pasadena, the finest climate, the best fruit ground in this State. John C. Bell, the auctioneer, will sell in one, two, three and five-acre lots. One acre makes six of our city lots. Home in the orange grove. Strangers, if you wish to purchase where you can double your money, this is the spot. Free ride. Look out! Leave here at 11 o'clock.

BRIEFS.

One death in the city yesterday and two in the country.

The rain commenced again at 8 p. m. and has been keeping up its lick, with or without a rush, all night.

The huge Mathes excursion arrived in ship-shape and Bristol fashion yesterday.

The Temple street cable road stockholders met yesterday to put up their first assessment of ten per cent.

Amid all the mud which entombs the rest of the railroads of the city, the track of the cable road keeps as clear as a whistle.

Filed in the Recorders' office yesterday: Thirty-five deeds, 13 mortgages, 5 satisfactions, 4 maps and 5 miscellaneous papers.

The dray of M. Hopkins, loaded with drain-pipe, mired in the mud-hole on Temple street, opposite the TIMES office, yesterday afternoon.

The Orizaba arrived opposite San Pedro Tuesday night and made three ineffectual attempts to get in. She landed her passengers at 9 a. m. yesterday.

The fire department was called out at 11:45 last night. The embryo blaze which was by Fred Smith's house, east First street, did not need their services.

V. Sotello's shoe-repairing shop, 202 Upper Main street, was broken into Tuesday night. Nine pairs of repaired shoes and two pairs repaired boots were abstracted.

Postoffice Inspector Booth, of Chattanooga, Tenn., is in the city after Jack Jones, the mail robber arrested through the sharp-eyedness of Assistant Postmaster Carr. He says Jones is the right man.

The Powell excursion went East yesterday with frohlics of great—L. A. Warren, A. W. Cooper, George Wirt and R. C. Kendall. The tide of travel doesn't boom eastward extensively at this season of the year.

"Tip" Howard, one of the four gamblers arrested several months ago for resisting Special Officer O. Harvey in the raid on 124 Commercial street, was discharged yesterday by a jury in Judge Cheney's Court. Harvey is in Arizona, and the continuance asked by the prosecution on this ground was denied.

Ed. Williams, M. D. Ryan, Frank Bush and John McGuire—the first three of whom were connected with the recent $400 robbery on Los Angeles street—were arrested yesterday by Officers Ponck and Stoermer for smoking opium. Bush was locked up; then released. The others gave $10 bail.

PERSONAL NEWS.

J. C. Peacock, of the Colton Semi-Tropic, was in town yesterday.

Judge J. G. Scrivner and wife, of San Francisco, arrived here yesterday.

C. D. Lorraer, of the Pomona Procress, is attending the State Horticultural Convention here.

At the Depot Hotel: T. B. Brooks, New York; Fred Cowley, Long Beach; John Jones, Jr., Pomona.

Hon. H. T. Fairbanks and son, of Petaluma, arrived in this city yesterday, and will remain here for some time.

At the St. Charles: W. Dunlap, San Francisco; M. C. Moff, A. F. Keyes and wife, Dover, Md.; Jas. B. Campbell, J. M. Campbell, S. Wilson, Pittsburg, Pa.; W. F. Klein, Cincinnati; O. L. Moon and wife, Topeka, Ks.; G. S. Bennett, Marshall, Mich.; H. Calhoun and wife, Ironton, O.; H. D. Scott, M. B. Scott, H. B. Reid, Terre Haute, Ind.; J. C. Wallace and wife, Monument, Ill.; H. H. Bellamy and wife, Winchester, Ks.

At the St. Elmo: Mr. Greenleaf, Albuquerque, N. M.; Chas. W. Pike, Nath. Wolff, J. S. Dinkelspiel, San Francisco; Wm. D. Harris, New York; H. Booth, Alabama; L. Honhelmer, St. Louis; Gus Moose, San Francisco; John A. Tucker and wife, Nath. O. Tucker, New York; S. Juda, San Francisco; A. S. Bond, Fort Wayne, Ind.; Wm. Deyor, Jr., Boston; Geo. F. Gross, H. S. Wilson, East Saginaw; C. N. A. Sheffer, San Francisco; A. G. Field, San Jose, C. Cole, A. Della Case, San Francisco. Mrs. S. Merritt and daughter, Indianapolis; R. C. Bach and wife, San Francisco.

AMUSEMENTS.

THE JEFFREYS-LEWIS COMPANY.—The weather is still against Jeffreys-Lewis, but the captivating actress draws in spite of it. There was another fair house last night. The second presentation of *Forget-Me-Not* was fully up to the first in terse and elegance of finish. It is a remarkable play, remarkably presented. The character of "Stephanie de Mohrivart," as presented by the fair actress, is a study in human nature, and a very dark side of human nature at that.

Hilary Mainhall has already won the good esteem of his Los Angeles audience, and was greeted with a little flurry of applause as he appeared on the stage. Thompson, as "Prince Malletti," also won laurels. Miss Charlotte Tittel made an acceptable "Alice Verney."

To-night *Diplomacy* will be given, and to-morrow night *Odette*.

No Apology Necessary.

The Herald's Council report errs in stating that the TIMES reporter proposed any apology for the little interview concerning Councilmen Velsir, Day and Biscailuz. The interview reported Mr. Velsir correctly. Mr. Velsir in Council didn't remember having said so, but wouldn't declare that he didn't. He repeated to Councilman Sinsabaugh and the reporter, there in Council, the same answer to the same proposition as set forth in the interview. The Herald reporter was not present when the matter he describes was going on.

Made a Break.

A tramp, long shadowed for carriage thieveries, yesterday stole Fred Hannaman's coat, on Main street. Officer Stoermer discovered him with the coat, and arrested him. At the corner of the courthouse the fellow made a break and fled down Conrt street. Several bystanders tried to stop him. Walter S. Moore threw out his leg to trip the fugitive, but only succeeded in knocking Stoermer into a cocked hat. Stoermer caught his man, however, and locked him up.

Los Angeles Hunting.

Thomas Philbrook and Austin Smith went over to East Los Angeles hunting, yesterday. They climbed the divide southeast of the Arroyo Seco, shot a mile from Los Angeles, bagged a quail, two rabbits and a fine wild-cat, which they lugged in justifiable pride to town. It was a handsome specimen, and will be mounted.

Nominations in the Fifth Ward.

The following nominations for Councilmen were made last evening at the citizens' meeting in the Fifth Ward: Walter S. Moore, A. W. Barrett. The former is a Republican, the latter a Democrat. A committee of four was elected to confer with the other parties as to candidates for the Board of Education.

FRUIT GROWERS.

Second Day's Session of the Convention.

THE UNION THOROUGHLY DISCUSSED.

Horatio P. Livermore in Support of One Organization for the State—The Fruit Exhibit.

The convention assembled at 10 o'clock. President Cooper in the chair, and the attendance about the same as on Tuesday. E. J. Wickson, of the Pacific Rural Press, officiated as Assistant Secretary.

The following committees were appointed on exhibition of fruits by Southern California: Citrus fruits—Thomas A. Garey, Los Angeles; James Bettner, Riverside; J. M. Gray, Chico. Deciduous fruits—Sol Runyon, Courtland; Colonel E. E. Edwards, Santa Ana; S. McKinley, Vernon. Miscellaneous fruits and articles—I. A. Wilcox, San ta Clara; A. T. Hatch, Suisun; Geo. Rice, Highlands.

The discussion opened on fruit packages, and Mr. Coronel, in behalf of Parker Early, of Cobden, Ill., exhibited a shipping crate, with pasteboard compartments similar to the arrangement of egg cases.

Mr. Williams, of Fresno, thought the chief point to be solved in shipping is the cost of package. The boxing costs more than the original expense of the fruit. He hoped to have the experiences of the shippers in the convention. We should have no secrets here.

Mr. Garey said the chief problem with the people of Southern California was the shipment of citrus fruits. While Los Angeles oranges are very hardy, and will keep a long time, still we must have the very best packages to ship in.

Dr. Chapin thought that the crate on exhibition was too fragile, and that, as boxes are usually handled on the railroad, it would be apt to fall to pieces.

Mr. Milko spoke favorably of the box on exhibition. This sort of box will necessitate the grading of fruit carefully—large fruit in large compartments and small fruit in small compartments. It can then be accurately graded and sold as No. 1 and No. 2.

Dr. Chapin related some personal experience about the difficulty of having fruit packed honestly by employes.

A delegate thought that every shipper should have his name stamped plainly on the box, so as to assume full responsibility for its character.

Mr. Gray asked the opinion of Mr. Hixson as to whether peaches could be shipped in such a package as exhibited without wrapping. Mr. Hixson spoke at some length on the general question before the convention. Peaches might be shipped in these boxes without wrapping if the sizes of the compartments were properly regulated. He stated that it was not generally known that figs might be shipped through in a fresh state. His house received some of this fruit the past season and it sold for extravagant figures. These figs, however, had to be shipped in separate compartments. He urged especially the use of stronger boxes than are generally employed for shipping. He enjoined the most scrupulous honesty in the packing of fruit—not to put an inferior quality either in the bottom or middle of packages. It is necessary also to pack full weight for exactly what every package purports to contain.

The Secretary read a letter from Parker Earle relating to the fruit box exhibited. The cost of packages was stated as averaging about twenty cents per bushel of fruit. He had shipped peaches to Europe in this box with the best result. The box has two compartments with thin layers in each, and holds six dozen, or a bushel of fruit.

C. B. Woodhead suggested that freight would have to be added to the stated cost if the boxes were shipped from the East.

Mr. Milko thought the right crate could be obtained and the boxes manufactured on this coast as cheaply as in the East.

Mr. Atkin had bought in Santa Cruz peach and grape packages at 2 cents each. [A voice—"Hurrah for Santa Cruz!"]

O. P. Chubb said he was paying 16½ cents to Eastern manufacturers. He had been told that the boxes could be shipped here from Maine and sold at less than current prices.

Dr. Congar had been told that boxes could be purchased in Maine for 7 cents each. They are of beach or birch, however, not pine.

Mr. Woodhead said that, when he was in business, his firm could buy egg cases in the East, pay freight and lay them down here cheaper than they could be bought in San Francisco.

Mr. Bettner, in New Orleans last winter, had inquired of the Florida growers what their boxes cost. They told him they bought boxes in Maine, and got them laid down at about the same expense as the Truckee box costs us; say 16½ cents. The Maine box is very unsightly. It is made of basswood, and warps out of shape. The Florida men were quite satisfied with it that they had taken steps for manufacturing boxes in their own State of the native pine.

A delegate said that there was enough timber in Humboldt county to box up all the fruit and fruit trees in the country. Boxes can be made as cheaply in California as in any country in the world.

On motion of Mr. Kinney, of San Gabriel, Horace P. Livermore was invited to open the discussion on fruit shipments in the afternoon session.

Dr. Congar spoke at some length about the curing and shipping of citrus fruits. He strongly advocated curing fruit thoroughly before shipment. He also scored the commission men severely for carelessness in handling fruit.

Mr. Rose spoke about curing fruit. It was his belief that we should have drying houses for this purpose, and evaporate all the moisture possible from the rinds of oranges and lemons before shipping.

W. A. Spalding, of the Reception Committee, requested that members of the convention write their names in the register kept at the door of the hall. It is desired that every member be registered. He also announced an excursion to Pasadena and the country beyond next Saturday, starting at 9 a. m. The San Gabriel Valley Railway Company give half rates—forty cents—for the round trip. The citizens of Pasadena will meet excursionists at Lamanda Park, the terminal station, and will drive them through the Sierra Madre tract, Baldwin's ranch, Rose's ranch and Pasadena, taking the train at Pasadena to return to Los Angeles at 5 o'clock in the afternoon. It is proposed that excursionists take lunch with them, so that they lose no time in stopping for dinner, as the trip is rather a long one, and will be fully occupied.

The banquet given to the State Board of Horticulture and invited guests of the Fruit Growers' Convention will be given at the St. Elmo Hotel next Saturday evening. It was first appointed for Mott Hall, but owing to the fact that the hall is not finished, the change has been made. This banquet is given by the people of Southern California to the State Board and visitors from the north and central parts of the State.

Recess till 1:30 p. m.

Afternoon Session.

The convention reassembled at 1:30 p. m. President Ellwood Cooper, after calling the meeting to order, announced that the subject for consideration in the afternoon session was: "How are the fruit-growers to dispose of their fruit without coming in competition with each other as to prices for the same quality and kinds of fruit?" He introduced H. P. Livermore as the first speaker on the subject.

Mr. Livermore said that he was a plain business man, who became interested in fruit-growing some six years ago. He had shipped deciduous fruits, grapes, etc., to the Eastern markets, and in this whole experience he had not been able to produce one element of certainty in the business. There has been an entire lack of system. When he made a shipment East it was a shot at random, and he never could tell whether his venture would result in profit or serious loss. Realizing the situation, he turned to see what possible relief from this uncertainty could be obtained. Instead of making better was in prospect, to withdraw and pocket his loss. In the first place, he made a tour of the State, and found that the fruit-growers, both north and south, were about in the same plight as himself. He returned to San Francisco satisfied that the condition was fully as bad as he had anticipated, and beyond immediate remedy. He concluded, however, that men of the enterprise and intelligence of the California fruit-growers would not long permit such a state of affairs to exist. When the State Convention was called, he attended, hoping to find that the combined wisdom of the representatives of the fruit-growing industries would solve the difficult problem. The convention, after much discussion, finally organized a Fruit-growers' Union, a corporation being formed with a capital stock of $250,000, in 250,000 shares of $1 each. The Union became a corporation because the law required such action, and because more effective work could be done. In order to further explain the purposes of the Union, Mr. Livermore then read the incorporation papers of the association. Mr. Livermore then read from a paper compiled from railroad statistics the following shipments of oranges, season 1884-5:

Shipping Points.	*Cars.*
San Francisco	7
Los Angeles	1119
Sacramento	1
Objective Points.	*Cars*
Shipped to—	
Denver	72
Pueblo	7
Omaha	62

Milwaukee	25
St. Paul and Minneapolis	115
New York	1
Boston	1
Philadelphia	1
Other Atlantic cities	1

During the past season, the speaker declared, Chicago has been used simply as a *dumping ground* for California fruits. It is evident that the Eastern markets have not been developed at all in proportion to the enlargement of our productive capacities. There is necessity for united organization to reach those markets. It won't do for any locality to depend upon its own resources and hold aloof from the organized movement.

The fruit men to-day don't know what stands behind them in the way of increased production and coming competition. The thing to be considered is the benefits to be derived from this union by a locality like Los Angeles and the whole of Southern California. He instanced the Florida Fruit Exchange, and read from its prospectus the principal objects and a description of the methods of the organization; also its instructions to orange-growers of Florida.

The transportation of green fruits has been hitherto limited to passenger trains, with all the stoppages and jars incident thereto, at an expense of about $600 a car. A committee of the Fruit Grower's Union hold a conference lasting an entire afternoon with Senator Stanford of the Southern Pacific Railroad Company. Senator Stanford strongly advised organization on the basis of fruit growers. In the matter of transportation he advised the running of special fruit trains. If the association could guarantee to the company a full train of fifteen cars every day, or every other day, they would run such a train at $300 per car. This train would run on fixed time and would go straight through with only necessary stoppages for fuel and water.

Further than that, he said: "I believe the fruit industry in this State could be developed to overshadow all the other industries in this State. If $300 a carload does not insure the prosperity of the industry we shall soon find out what rate will insure it and we will reduce to that."

Mr. Livermore touched upon the weight and power of the organization in influencing legislation, and suggested that the ten thousand fruit men thus associated together cannot be ignored as an individual might be. Touching upon the subject of the local organization for Southern California, and the arguments which have been advanced in its support, he urged that it would involve needless expense. To carry it out, an entire working organization would need to be maintained all the year round, while the shipments of citrus fruits might not extend through more than four months of that time. He urged that the difference in time of maturing crops in the north, central and southern portions of the State would all work together in employing a central organization ten months in the year. The other two months are no more than required to compare notes, close up the business of the last campaign, and make arrangements for the next season.

Nothing but a fully equipped, continuously working organization can, in future, answer the requirements of California producers. The Union will be a continuously working organization. When it is not engaged in shipping fruits it will devote its energies to collecting statistics of production and preparing markets for shipment.

Another feature of the situation here is not appreciated at all. All attention seems to be directed to the citrus fruits. But the deciduous fruit interests here are equal, if not superior, to those of any locality. It will be necessary to provide large avenues for disposing of this immense product.

As to the status of California fruits in Eastern markets, he thought it was necessary to have a strong organization, to properly further our interests there. Although our oranges carried off the prizes at New Orleans, still the majority of Eastern consumers will take the Florida fruit in preference to ours, if they meet in equal competition.

One broad consideration transcends all of these: that the capital values of our fruit-growing properties.
